Education

2021-2020 **Full Stack Java Developer Bootcamp**
I attended the bootcamp at Clarusway between 2021-2022. For me, it enabled me to improve myself in the Backend area after Frontend Developer. My various works with Java are available on my Portfolio website.

2019-2020 **Web Developer Bootcamp**
As it was my first step in the software industry, it was difficult at first, but thanks to this course I attended, my interest in this field increased day by day and brought me to the position I am in today.

Experience

2020-2023 **Freelance Frontend Developer**

After finishing the Frontend Developer course, I started working as a freelancer and worked to fulfill clients' requests. This experience also taught me how to communicate with clients.

Skills

Software Languages
HTML & CSS
JavaScript
Java
PHP
React
Selenium

Soft Skills
Creative Thinking
Conflict Resolution
